HEALTH DEPENDS UPON GOOD DIGESTION.—"Weakness of the Stomach" is the source of most evils that were contained in Pandora's box. Debility, headache, nervous tremors, palpitation of the heart and local pains innumerable are its direct consequences. It obscures the intellect and gives birth to the most absurd and incoherent fancies; incapacitates a man for business, and renders a persistent exertion next to impossible. Yet, strange to say, indigestion is the most neglected of all ailments. And this is the more extraordinary from the fact that an absolute, infallible specific for the disorder can be obtained in every city, town, and village of the United States. HERRING'S FRENCH BITTERS takes as wide a range as the malarial which it cures. It pervades every civilized portion of the Western Hemisphere, and its celebrity as a tonic and alterative is everywhere established. It is due to the common sense of the American public to see that the demand for it is immense, and continually on the increase; but still thousands continue to suffer from dyspepsia, with the great fact staring them in the face that a remedy for it exists, and it were, within arm's length of every sufferer. Such is the inconsistency of human nature! Day by day, however, the number of those who manifest this insane indifference to their own health and comfort diminishes; and the time will come, it is confidently believed, when the disease will be expelled from the category of prevalent disorders by this incomparable alterative and restorative.

SOONER OR LATER, a neglect of cold will develop a constant cough, shortness of breath, falling strength, and wasting of flesh—the avatars—couriers of consumption. In some instances the same cause will produce bronchitis, a disease of the branches of the windpipe. In all affections of the pulmonary organs, as well as in bronchial complaints, JAYNE'S EXPECTORANT is both a palliative and a curative, as the testimony of thousands, and its world-wide reputation attests—while in coughs and colds it acts speedily, and when taken according to directions, promptly removes them. Why not give this standard remedy an immediate trial? Sold by all druggists.

JEWELRY.—Mr. William W. Cassidy, No. 12 South Second street, has the largest and most attractive assortment of fine jewelry and silverware in the city. Purchasers can rely upon obtaining a real pure article furnished at a price which cannot be equalled. He also has a large stock of American watches in all varieties and at all prices. A visit to his store is sure to result in pleasure and profit.

DEBARRMENT OF THE BOWELS.—Judicious use of Speer's "Standard Wine Bitters" in keeping the system in tone, and preventing the derangement of the bowels, is almost beyond belief. Try them, and you will be convinced of the fact. For sale by Fred Brown, Johnson, Holloway & Co., and other Drugists.

PITTSBURG GRAPES from the Knox Fruit Farm and Nurseries—Concord, Delaware, Iona, Israella, and other varieties, received daily, and for sale in quantities to suit purchasers. No. 727 Market street—DRINK the famous Arctic Soda Water, and read THE EVENING TELEGRAPH, at Hillman's News Stand, at North Pennsylvania Depot.

The Chinese Government having through the Hon. Anson Burlingame conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of 900 miles at once, between the following ports, viz:—

Canton..... 1,000,000 Population. Macao..... 60,000 Hong Kong..... 250,000 Swatow..... 200,000 Amoy..... 250,000 Foo-Chow..... 300,000 Wan-Chow..... 400,000 Ningpo..... 1,200,000 Hang-Chow..... 1,200,000 Shanghai..... 1,000,000

Total..... 5,910,000 These ports have a foreign commerce of \$90,000,000 and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company propose erecting land lines, and establishing a speedy and trustworthy mode of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life, especially in China. She has no postal system, and her only means now of communicating information is by courier on land, and by steamers on water.

The Western World knows that China is a very large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes, by the local magistrates, make her population four hundred and twenty millions, and it is more likely to be under than over the actual aggregate. Nearly all of these who are over ten years old not only can, but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and readers; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day, great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph were proposed, connecting all their great seaports, were now in existence, it is believed that its business would pay its cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of vast national importance commercially, politically, and evangelically. Shares of this company to a limited number, may be obtained at \$25 each, \$10 payable down, \$15 on the 1st of November, and \$25 payable in monthly instalments of \$250 each, commencing December 1, 1868 on application to

CENTRAL PACIFIC RAILROAD FIRST MORTGAGE BONDS At 103, And Accrued Interest.

FOR SALE BY DE HAVEN & BRO., No. 40 SOUTH THIRD STREET, PHILADELPHIA. 780 MILES OF TRAIL

UNION PACIFIC RAILROAD. Are now finished and in operation. Although this road is built with great rapidity, the work is thoroughly done, and all materials used along the line of it, are selected by the United States Commissioners to be first-class in every respect, before it is accepted, and before any bonds can be issued upon it.

Rapidity and excellence of construction have been secured by a complete division of labor and by distributing the twenty thousand men employed along the line for long distances at once. It is now probable that the WHOLE LINE TO THE PACIFIC WILL BE COMPLETED IN 1869.

The Company have ample means of which the Government can and other materials used along the line of it, are selected by the United States Commissioners to be first-class in every respect, before it is accepted, and before any bonds can be issued upon it.

Rapidity and excellence of construction have been secured by a complete division of labor and by distributing the twenty thousand men employed along the line for long distances at once. It is now probable that the WHOLE LINE TO THE PACIFIC WILL BE COMPLETED IN 1869.

THE EARNINGS OF THE UNION PACIFIC RAILROAD, from its Way or Local Business only during the year ending June 30, 1868, amounted to over FOUR MILLION DOLLARS.

Which after paying all expenses was much more than sufficient to pay the interest upon its Bonds. These earnings are no indication of the vast through traffic that must follow the opening of the line to the Pacific, but they certainly prove that FIRST MORTGAGE BONDS Upon such a property costing nearly three times their amount, ARE ENTIRELY SECURE.

The Union Pacific Bonds run thirty years, are for \$1000 each, and have coupons attached. They bear annual interest, payable on the first days of January and July, at the Company's office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. The price is 102 1/2 and at the present rate of gold, they pay a liberal income on their cost.

A very important consideration in determining the value of these bonds is the length of time they have to run. It is well known that a long bond always commands a much higher price than a short one. It is safe to assume that during the next thirty years, the rate of interest in the United States will decline, as it has done in Europe, and we have a right to expect that such six per cent. securities as these will be held at a high premium as those of this Government, which in 1867 were bought in at from 20 to 25 per cent. above par. The export demand alone may produce this result, and as the issue of a private corporation, they are beyond the reach of political action.

The Company believe that their Bonds, at the present rate, are the cheapest security in the market, and the right to advance the price at any time is reserved. Subscriptions will be received in Philadelphia by DE HAVEN & BROTHER, No. 40 S. THIRD Street, W. PAINTER & CO., No. 36 S. THIRD Street, SMITH, RANDOLPH & CO., No. 16 S. THIRD Street, AND IN NEW YORK AT THE COMPANY'S OFFICE, No. 20 NASSAU Street, AND BY JOHN J. CISCO & SON, BANKERS, No. 51 WALL Street, New York.

And by the Company's advertised Agents throughout the United States. Remittances should be made in drafts or other funds paid in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents, will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving full information that is possible in an ad., respecting the Progress of the Work, the Resources of the Country traversed by the Road, and Means for Construction and the Value of the Bonds, which will be sent free on application at the Company's offices, or to any of the advertised agents.
